bids fair to be a hummer.

The preliminary is between Young Raymond, the One Round Terror, of Greeneville and Stakely of the subbase. Young Raymond is a beginner in the game but his opponent is a clever boy, in fact a boxing instructor at the base. If Raymond wins from Stakely it will give the local lad a good start toward puglistic laurels.

Miller and Brown, two boys from the base will also meet in a four round bout. Both these boys have boxed be-fore Norwich audiences and are clever

Pinehurst, N. C., April 6—Francis Ouimet won the north and south amateur championship golf title here today by defeating S. J. Graham of Greenwich, 5 up and 4 to play, at the 32nd hole of the 36 hole final. Ouimet went around in 72 in the morning round and led by 5 up at the 18th hole. In the afternoon Graham held him down to his five hole advantage to the end of the match. At the 14th hole Ouimet finished the afternoon session with 73, or a total of 145 for the 36 holes. Graham's medal score was 154.

The Roadster, Too, Has All the Noted Essex Qualities

Speed-Power-Endurance-Economy-Utility. It is an Ideal Car for Business as Well as Pleasure

The wide business uses for which the Essex Roadster is adapted are instantly apparent.

Its utilities are many. But note no evidence of them is revealed when the Roadster is used as a pleasure car. Every line is smart, trim and graceful. It takes but a moment to make the change.

A World Endurance Record Proves Essex Dependability

A large class of its buyers are business men. They choose it for utility and dependable transportation. It becomes, in fact, a part of their business system. It must be on the job, keep all engagements on time, and be as responsible as an engineer's watch.

These same qualities, with its rare good looks, make the Roadster unsurpassed as a smart car for pleasure.

Economy, durability and train-like regularity are the standards set by Essex. These things have been shown in the hands of more than 25,000 owners.

It was more dramatically proved on the Cincinnati speedway, when an Essex stock chassis set the world's long distance endurance record of 3,037 miles in 50 hours. The same car, in three separate tests, traveled 5,870 miles at an average speed above a mile a minute. Another stock Essex set the world's 24-hour road mark of 1,061 miles over snowcovered Iowa roads.

It is specially suited for salesmen, inspectors and others who must cover wide territory, quickly and frequently. Though not large, the Essex is commodious. There is plenty of room for passengers, and special arrangements for carrying sample cases, unseen, and even a trunk if desired.

Come see the Essex Roadster. Ride in it. Try its paces. Whether you want it for business or pleasure, you will appreciate why Essex in its first year set a new world's sales record.

How clear to my mind are the prices once ruling
When I was a boy and could eat all my fill.

When, famislied, I came from my much hated schooling
And sat down to dinner with Harry and Bill.

A great plate of ment—duck or turkey in sason—
Corn. turnlys, asparagus, peaches galore.

With three or four pies—there was no enrithy reason.

To stop except stomachs that wouldn't hold more—
All came from the basket, the brown wicker basket.

A little bit higher for chops at the Twas kept in the village by Marvin and Chapple.

And no one delivered things then at the door—
They came in the basket, the brown worker basket,
The old market basket that father once bore.

How oft in the present when worried and harried

I think with a sigh of those days of delight.

And picture the basket that father then carried

And brought home filled up to the brim every night.

How fresh were its contents, as fragrant as bones.
